FUSION COATINGS™

L1441 Latitude 6′ Slotted Steel, Contour Bench, Portable/Surface Mount

6′ slotted steel contour bench, portable/surface mount

Material
The bench is 71.75″ long. The contour seat is made of 12-gauge steel with a .75″ wide slot pattern. The bench is plastisol coated with an average thickness of .125″ and finished with a high-gloss patented TopCoat®. The bench seat will support 200 lbs per linear foot.

The bench features cast iron legs. Each leg features a foot with a .4″ diameter mounting hole. The legs are protected with FusionGuard® rust protection and finished with a high-gloss powder coat. They are designed to be portable for flexibility in placement or surface mounted to prevent movement. Mounting hardware is not included.

Finish
TopCoat patented high-gloss finish resists UV deterioration, mildew, staining and fading.

The TopCoat finish has been tested to the requirements of ASTM E 1354 and is determined to be in compliance with California Uniform Fire Code 1103.2.1.4.2.

FusionGuard process ensures that all components of the under supports are coated with a zinc-rich primer. Under supports treated with FusionGuard resist rust four times longer than conventional powder coat finishes in independent testing.

Color
This product is available in the following colors: Black, Blue, Bronze, Brown, Burgundy, Camel, Evergreen, Grey, Navy, Orange, Purple, Red, Silver, Teal, Vanilla, White, and Yellow. The undersupports are available in the same colors in a rust-resistant powder coat finish.

Assembly
The bench requires some assembly.

Maintenance
The product is virtually maintenance-free and requires only periodic cleaning with a sponge and a solution of mild detergent and water to remove surface dirt. Do not clean with solvent or petroleum based products.

Warranty
Fusion Coatings® products are covered by a seven-year warranty from the date of purchase.
